

MS in Integrated Biotechnology

UNLEASH YOUR BIOTECH POTENTIAL

WHY CHOOSE IBT

The Master of Science Degree in Integrated Biotechnology is designed to prepare you for a successful career in the rapidly growing biotech sector. This fully online program provides a solid foundation for careers in biotechnology and can also pave the way for further graduate or professional training.

Choosing a career in biotechnology allows you to blend your passion for science with the opportunity to make a positive impact on the world!

WHY CHOOSE ASU

The Department of Natural Sciences is proud to offer the first STEM Master's Program at Albany State University. Our faculty members bring real-world knowledge into the classroom, drawing from their expertise in genetic engineering, medical microbiology, molecular diagnostics, and more. We are committed to providing one-on-one mentorship, academic and career guidance, and feedback to ensure the success of our students.

PROGRAM HIGHLIGHTS

The MS in Integrated Biotechnology is a two-year graduate program. Its curriculum consists of 30 credits, which includes 6 hours of internship experience and 6 credits of electives. We accept students for the fall and spring semesters.

AREAS OF CONCENTRATION

Biomedical Track
Environmental Track

APPLICATIONS

Spring admission: October 1
